For North Carolina—Partly cloudy Thursday, showers in west portion; Friday fair; light east winds.

A Chicago lady stenographer has just inherited $2,000,000 from an unexpected source. She must be perfectly beautiful to have been so lucky.

At Bridgeport, Conn., a few days ago a reservoir dam broke and destroyed thousands of dollars worth of property. We'll bet that everybody who lost anything by that dam catastrophe will sue the company.

The Atlanta Journal remarks: "Senator Platt says that life is not worth living." Of course, remorse is bound to overtake a man for living a life that doesn't give the Democrats any chance of carrying the great State of New York.

The Columbia State says: "When they begin stringing our hearts on hat pins it is time to ask an official investigation of the Summer girl." Let the Summer girls alone. We can say for the seashore Summer girls that they defy investigation.

It is altogether unreasonable for newspapers to suggest that John Hyde went to England because he wanted to get out of reach of the Washington grand jury. How do the newspapers know but what he will also take in France, Switzerland, Germany and Italy while he is abroad?

Secretary Wilson declares that every grafter in the Agricultural Department will be fired. Where there is so much smoke there is bound to have been s ome fire "onet alretty." Secretary Wilson surely can't overlook the fact that some of the people who have been connected with his Department are hot numbers.

"The Pilgrim" for August is out in its usually bright form and truly demonstrates its claim to be "a magazine for every home." It is the "fiction number" and is a charming compendium of story, fashion and art. Subscription price $1; 10c per copy. Address The Pilgrim Magazine Publishing Co., Battle Creek, Mich.

President Jordan wants Secretary Wilson removed as head of the Agricultural Department in order to secure a better administration of its affairs. We haven't got a thing against Secretary Wilson but we know enough about agriculture to believe that confidence in the Department will never grow till all its Republican attaches are weeded out.

LOCAL DOTS.

—The excursion to Columbia, S. C., returned at 7:45 A. M. yesterday. There were 12 coaches and a baggage car.

—The marked increase in the number of Star Business Locals shows that the people are awaking to the value of that department to advertisers.

—James Woods, colored, indicted by Dorcas Canady, for cursing and abusing her in a row about a cow, was fined $5 and costs by Justice Bornemann yesterday.

—A committee from the Brotherhood of Locomotive Engineers over the two divisions of the Atlantic Coast Line has been here for several days conferring with General Manager Royall with reference to a number of adjustments wanted by the Brotherhood.

—At 11:30 A. M. yesterday the department responded to a telephone alarm of fire from Kidder's hill. Sparks from a chiney caused a small blaze in the roof of a one-story dwelling owned by the lumber company and occupied by a colored man. The damage will not exceed $5.

—Fayetteville Observer: "Work is in active progress on the fourth span of the steel bridge across the Cape Fear river at Lillington. The general manager of the road says it will be completed to Fayetteville by January 1, 1906. The heaviest grading is already finished. The working force is now 150 convicts, 50 being added this week."

—"The Orphan Home," the little paper published by the children of the I. O. O. F. orphanage at Goldsboro, says in its issue this week: "We are to go on our usual outing to Wilmington, August 15th, by the highly appreciated kindness of those thoughtful Odd Fellows; and, although Lizzie Markham is ill with fever now, we hope to be able to take all with us."

A FRIGHTFUL RUNAWAY.

Ladies and Children Thrown from Buggy Yesterday Afternoon.

Near the corner of Fifth and Dock streets yesterday evening about 6:30 o'clock, a horse attached to a buggy, belonging to Mr. F. A. Montgomery, superintendent of the County Home, became frightened at Dr. L. H. Love's automobile which was immediately in front, going north, or at some other object, shied to the right, struck a telephone pole or an oak tree on the plaza in the centre of the street, and threw the occupants of the buggy to the ground. The horse was being driven by Harry Montgomery, a little son of Mr. Montgomery, and with him in the buggy were his sister, Mrs. Robert Presson, and Mrs. C. N. Murrin and child. Dr. Love immediately stopped his automobile, when he saw the accident and with the assistance of Dr. John C. Wessell, who was at home near the scene, the ladies were taken into Mr. Geo. N. Harriss' residence and given every attention possible. Both ladies were suffering greatly from the nervous shock. Mrs. Presson received injuries about the back. Mrs. Murrin received bruises on the arm and the child on the knee and face. The boy fell on the right side, bruising his face and causing a hemorrhage from the nose.

Later Dr. Wessell accompanied Mrs. Murrin and child to her home at 411 Church street, and Dr. F. H. Russell, Mr. Montgomery's family physician, took Mrs. Presson to the home of her uncle, Mr. R. A. Montgomery, Ninth and Princess streets. The frightened horse broke out of the buggy shafts and ran out Fourth street as far as Smith's Creek bridge where the lines became entangled in the animal's feet and he was stopped by running into another buggy in which some ladies were driving toward the city. The horse had tried to run away once before the same day, but the buggy was in deep sand and the boy was able to manage the fractious animal.

INDICTED BY GAME WARDEN.

Gunners Who Have Been Shooting Martins at Wrightsville.

Something in the nature of a mild sensation was sprung upon local sportsmen yesterday when it became known that County Game Warden E. H. Freman had sworn out a dozen warrants for prominent Wrightsville sound citizens charging them with violation of the game laws in shooting into and killing thousands of field martins that have literally taken possession of the fine grove in front of Capt. John H. Hanby's Ocean View property, on the sound. The swarm of martins, almost obscuring the sun when circling over the sound, was at first an interesting and phenomenal sight, but after a while they came in such droves as to render themselves a nuisance about the place, and Capt. Hanby gave carte blanche to all gunners to come there and shoot the birds, which he first encouraged, but later found a nuisance. It is estimated that within the past four days 25,000 of the birds have been killed, but apparently there is no diminution of the swarms. At one volley it is said that the gunners have brought down over a thousand of the birds, which have been literally carted away from the premises after being shot.

The trial of the gentlemen indicted by the Game Warden will probably take place to-day.

DEATH CAME QUICKLY

Mr. David B. Mitchell Died Suddenly on Porch Following Violent Hemorrhage

FEEBLE HEALTH SOME TIME

Pointed Companion Way to Medical Assistance Which Came Quickly But Too Late—Funeral Arrangements Made.

Many friends here and elsewhere will learn with sincere regret of the death of Mr. David Berry Mitchell, which occurred rather suddenly last night at 8 o'clock at the residence of Mrs. Alderman, No. 7 South Fourth street, where he had been boarding the past several months. Mr. Mitchell had been in wretched health for some time, but last night he appeared better than usual, ate a hearty supper, was bright and cheerful and had walked out on the front porch of the residence with other boarders at the house, when suddenly he was seized with a violent hemorrhage from the lungs. He leaned over the banisters and blood flowed freely from his mouth. Just before the attack he seemed to have realized what was coming and pointed out the residence of Dr. Thomas, diagonally down the street, indicating that he wished for his companion to go for the physician. A moment later the hemorrhage was over and one of his companions caught him as he was about to fall, assisting him to a chair on the porch where he quickly breathed his last. Dr. W. E. Storm and Dr. Thomas responded to a hasty summons but before they could arrive in all possible haste the sick man was gone. A few minutes before he had come out on the porch joking with those about him and apparently as cheerful as cheerful could be. The circumstances of the death are peculiarly sad from the fact that Mr. Mitchell had been a great sufferer with tuberculosis for months and his sudden death was not in the least expected.

David Berry Mitchell was a son of the late B. F. Mitchell, one of the pioneer grain dealers and millers of the South, and Mrs. Sarah S. Mitchell, both now of sainted memory. He was born and reared in Wilmington and was 51 years of age at the time of his death. He was educated in the public schools and the Jewett Academy and the Colston Military Institute, of Wilmington. Early in life he entered the office of his father, the business then being conducted under the firm name of B. F. Mitchell & Son., now the B. F. Mitchell Company. He remained with his father until near or just after his father's death, when he took a position as travelling salesman for a firm in Sheffield, Ala., remaining in that employ for a number of years. About 12 years ago he went to New York and became bookkeeper for James Chieves & Co., a large commission house in that city, remaining with the firm for nine years when he was forced to give up the work on account of his failing health. From New York he went West hoping to be benefitted by the climate, remaining in Arizonia, Colorado, New Mexico and Northern Texas for three years. The past Winter he spent at a sanitarium at Aiken, S. C., coming to Wilmington last May. While he did not regain his strength rapidly at times his condition improved and gave hope. It was upon one of those periods of apparent improvement that the thread was broken in a twinkling and he passed into the Great Beyond.

Mr. Mitchell is survived by one brother, Mr. Charles J. Mitchell, who remained devoted and self-sacrificing to his brother until the last, and three sisters, Mrs. Mildred J. Huggins, Mrs. A. M. Baldwin and Mrs. H. L. Sloan, all of Wilmington. Mrs. Huggins is away from the city, spending the Summer at Caroleen, near Charlotte, N. C., but she will arrive to-day in time to attend the funeral which will be conducted at 5 o'clock this afternoon from the residence of Dr. A. M. Baldwin, No. 3 South Fourth street.

Died at Lake Waccamaw.

Friends in the city last night heard with profound sorrow of the death of Mrs. Fannie Gillespie, wife of Mr. George S. Gillespie, which occurred at the home of the family at Lake Waccamaw, N. C., at 6:30 o'clock yesterday evening, after an illness of several months. Mrs. Gillespie was the daughter of Mrs. M. C. Carroll, of Lake Waccamaw, and leaves besides her mother and husband a sister, Miss Lizzie Carroll, of Lake Waccamaw, and one brother, Mr. John Carroll, of Rocky Mount. All members of the family were with Mrs. Gillespie when she died. She was a woman of high Christian character, a devout communicant of the Episcopal church, and was held in the highest esteem by all who enjoyed her acquaintance. The remains will reach Wilmington upon the arrival of the train from the South early this afternoon and the funeral services will be conducted from the lodge in Oakdale cemetery, where the interment will take place. Services will also be conducted from the residence at Lake Waccamaw before the departure of the remains by Rev. R. W. Hogue, who will go on the 6 o'clock train this morning and accompany the remains to Wilmington.

Strangers Were Married.

During a lull in the hum of proceedings in Justice Bornemann's court yesterday, a well dressed, well spoken couple presented themselves and asked to be joined in the holy bonds of matrimony. Justice Bornemann is "Johnny-on-the-spot" when it comes to marriage ceremonies and the words were soon spoken that made them man and wife. The marriage license gave the names as Sidney B. Riney, of Illinois, and Lida Francis Carrier, of Hartford, Conn. The marriage certificate was witnessed by Messrs. Wm. J. Bellamy, John W. Gafford and W. F. Alexander.

SHOCKLEY CASE AFTERMATH

Pet O'Neill Not Guilty of Assault With Deadly Weapon—Counsel Being Employed—No Bond Yet.

At 10 o'clock yesterday morning Justice Furlong rendered his decision in the case of State against Pet O'Neill, charged with an assault with a deadly weapon upon S. A. Robbins, the saloon clerk, who figured in the Shockley affair last Saturday night. Justice Furlong held there was not probable cause and O'Neill was dismissed. He was the fourth of the marble cutters charged with an assault upon Robbins when the latter was engaged in a fight with Frank Talbert, who was killed, but all of the four were discharged. It was alleged by Mr. Robbins that when he was engaged in the fight with Talbert and when Shockley came out of the saloon and hit Talbert, the four marble cutters were taking their companion's, Talbert's, part and were after him with knives, sticks and other deadly weapons. The preponderance of testimony at the preliminary trial, however, was that the companions of Talbert took no part in the difficulty, except to help the injured man away after he was struck.

There were no developments in the case of Mr. Shockley yesterday. Mr. Marsden Bellamy, principal counsel for the prisoner, said yesterday evening that no steps had been taken to secure bond for his client, and that he did not know yet that any steps in that direction would be taken. A habeas corpus would necessarily be very expensive and his client would perhaps need what means he has to properly defend himself in court. It is understood that the brother of Talbert and his friends will retain distinguished attorneys outside the city to prosecute the case, ex-Governor Aycock and Mr. Dortch, of Goldsboro, having been mentioned in this connection.

Dr. Bell, the coroner, yesterday approached Justice Furlong as to any action necessary relative to the part taken in the original fight by Mr. Robbins, suggesting the question on an accessory. Justice Furlong told Dr. Bell that he did not think a cause of action existed and the matter was dropped. Dr. Bell did not want to appear as over-zealous in the case, but at the same time he desired to follow strictly the path of his duty.

The Newbern Journal of yesterday says of Mr. Shockley:

"Shockley was in Newbern for several months about two years ago. He is a half brother of Mr. Stewart Calloway, and being a barber, was occasionally employed by him. When he went to Wilmington he took charge of the Orton House barber shop and a few months ago went into the saloon business. He has enjoyed a good reputation and had a good many friends who are surprised and shocked at the awful deed."

THE MERCHANTS' ASSOCIATION.

Industrial Edition Endorsed—Persecution of Corporations.

A special meeting of the Board of Directors of the Merchants' Association was held yesterday morning in the rooms of the Chamber of Commerce. Those present were Mr. W. B. Cooper, the president; Mr. James Kyle, secretary, and Messrs. L. B. Rogers, C. M. Whitlock, W. E. Perdew, M. W. Jacobi and Z. W. Whitehead, the last named by invitation.

Mr. Whitehead laid before the Directors his plans for a special, illustrated trade edition of the Carolina Fruit and Truckers' Journal, of this city, which will be out in about four weeks. Mr. Jacobi moved that the Association give its heartiest support to the enterprise. The motion was seconded by Mr. Whitlock and carried.

Mr. Jacobi offered a resolution commending an editorial in the Wilmington Messenger of August 2nd regarding the persecution of corporations and recommending that "it would be wise that instead of publishing to the world our short-comings that we meet, either as citizens or commercial organizations with parties interested and correct any existing evils. Better results and progress would thus be insured." The motion was unanimously adopted.

The banquet and reception committees upon the occasion of the recent visit of Governor Glenn to Wrightsville Beach, made report and were discharged with thanks.

The encampment committee reported an expenditure of $1,101.98 upon the grounds at Summer Rest, of which $446.75 was raised through the efforts of the Merchants' Association and the balance of the expense was met by the Consolidated Company.

Remains Sent to Newbern.

The remains of Mr. Henry A. Brown, of Newbern, who died at 5:30 o'clock Tuesday afternoon at the James Walker Memorial Hospital, in this city, where he had been for treatment six weeks, were taken to Newbern on the 2:25 P. M. train yesterday a[illegible] accompanied by his son [illegible] who were with him. The deceased was [illegible] age and had been [illegible] tion of disease. The funeral will be conducted this morning from the [illegible] church in Newbern.

They Favor Wrightsville.

Chief Musician, W. L. Bell, of the Second Regiment Band, of Tarboro, which was recently in encampment with the State troops at Summer Rest, in a business letter to the Star says: "Our time was spent so pleasantly that we favor Wrightsville in preference to any location in the State for a permanent site for the encampment. The people of Wilmington, too, were so kind to us that we will never forget them."

The Stuart House, at Southport, is one of the established institutions of the Cape Fear section, and fully maintains its old-time reputation for cleanliness, comfort, polite attention to guests and table fare, that is both elegant and substantial. au 2-3t**

RAIDED ENTIRE TOWN

Railroad Depot and Half Dozen or More Places Burglarized On Tuesday Night

VILLAGE OF ATKINSON, N. C.

A. C. L. Authorities Asked to Send Bloodhounds to Track Criminals —$200 and Other Valuables Aggregate of the Booty.

The Atlantic Coast Line depot and half a dozen or more houses were entered in a wholesale burglary that occurred at Atkinson, N. C., a small station on the A. & Y. railroad about 28 miles from Wilmington, between this city and Fayetteville, night before last. About $200 in money and other valuables were stolen from the several places entered.

The robberies were discovered when the inhabitants of the town awoke yesterday morning and the greatest excitement prevailed. Tracks of the maurauders were in evidence about the place in the morning and word was sent to Wilmington for bloodhounds to track the criminals. Their methods gave evidence of professionals passing through the country and their capture was regarded as especially desirable.

The first news of the robbery was received here by Mr. J. A. Fountain, division superintendent of the Atlantic Coast Line in this city, who took great interest in the case but was unable to find dogs he could recommend for tracking criminals. He tried in Wilmington, at Castle Haynes and in Chadbourn but the bloodhounds could not be found.

Atkinson has no telegraph or telephone station and it was impossible to get full particulars of the developments in the case last night. The town has a population of not over one hundred and fifty people and has no police protection. The people, however, are excited over the daring robberies and are leaving no stone unturned in their effort to capture the criminals.

The Wilmington police authorities have been notified to look out for suspicious characters though it is believed the thieves are headed the other way.

THE EAGLES ARE COMING.

Local Aerie Will Be Instituted In Academy To-night.

State Organizer Chap Bodenhamer, of the Fraternal Order of Eagles, and a team from the Winston-Salem aerie composed of Messrs. A. C. Green, C. M. Cain and J. O. Robinson, arrived last night on the A. & Y. train for the purpose of instituting an aerie of the order of some sixty members in the Academy of Music to-night. The Winston delegation is a clever lot and there is fun ahead for the local contingent, headed by Dr. Walter R. Kingsbury, who was largely instrumental in working up the charter list. A preliminary meeting of the local aerie was held last night in Germania Hall, but nothing was given out for publication. The "hot time" comes when the boys line up for installation to-night.

The order in the United States is only six years old but there are already in existence 1,100 aeries with 800,000 members. There are now aeries in Winston and Salisbury, Wilmington being the third city in the State to organize. The order is fraternal social and beneficiary. Its national headquarters are at Kansas City, Mo.

The following is the charter list of the new aerie: Julius P. Taylor, D. M. Beardsley, A. A. Hergearother, W. T. Mercer, W. S. Smith, Jas. H. Burruss, J. S. Lynch, Jas. C. Womack, B. F. White, Jr., G. C. Johnson, J. T. Cowan, Adolph G. Ahrens, Geo. V. Harrell, E. T. Lindsey, H. Z. Clowe, Chas. F. Nurnberger, A. L. McNorton, J. T. Slaughter, Jr., Geo T. Hewlett, J. E. Cowell, J. G. PERSONAL PARAGRAPHS.

—Miss Janie Hardin is spending some time at Brevard, N. C.

—Mr. J. M. Burke, of Maxton, was here yesterday returning from a pleasant sojuorn at Southport.

—Messrs Vance M. Weill, of Goldsboro, and P. S. Cox, of Newbern, were guests at The Orton yesterday.

—Mr. R. S. Motte, of Columbia, S. C., is here on a visit to the family of his parents, Mr. and Mrs. Benjamin Motte, on South Second street.

—Mrs. T. O. Bunting and Miss Louise Bunting left yesterday to spend a part of the remainder of the Summer at Weaverville, N. C., in the Western part of the State.

—Mr. Felix Hoyle Klutzz, formerly a popular young pharmacist at Ahrens' drug store, has resigned his position with the Richmond Drug Company at Rockingham, N. C., and arrived last night to take a position at the drug store of Mr. James M. Hall, where he may be found in the future.

—Maj Hugh Waddell, of Washington, D. C., bother of Mayor A. M. Waddell, is spending a while at the Hotel Tarrymoore, on Wrightsville Beach, accompanied by Mrs. Waddell. They have been joined there by Col. and Mrs. Waddell, of this city, the Mayor coming up from the beach daily to attend to his executive duties.

—Fayetteville Observer, 2nd: "Mr. and Mrs. W. G. McLauchlin and children returned from Wrightsville Beach at noon to-day.——Mrs. J. M. Matthews, Miss Alice Matthews and Misses Lillian and Helen Slocomb returned to-day from a two weeks' stay at Wrightsville Beach.——Mr. and Mrs. A. E. Martin have gone to New York, making the trip all the way by water. They left here Saturday on the steamer Tar Heel, and sailed from Wilmington on yesterday on the Clyde Line steamer Navahoe."

LIQUOR CASES BEFORE MAYOR.

Negro Restaurant Keeper Held for Higher Court—Bicycle Thief.

Nathan Hankins, the drunken colored man so clevely captured in the act of stealing a bicycle after an exciting chase by Frank Brown and Walter Burkheimer, two messenger boys at the Postal Telegraph office, Tuesday night, was arraigned before the Mayor yesterday at noon and bound to Superior Court under bond of $50 in default of which he went to jail until the September term.

Dock Suggs, colored, proprietor of a negro restaurant on Fourth, between Brunswick and Bladen streets, was charged in the police court also yesterday with selling liquor without license and selling liquor on Sunday. He was represented by William J. Bellamy, Esq., and was bound over in each case under bond of $25, which was given. During the progress of the trial a witness let a hint drop as to Bob Stevenson, who, it seems, acted as a go-between in one of the transactions. A warrant was made out against him for selling liquor without license and he was later arrested by Policeman D. W. Willis at Front and Red Cross streets. He will be arraigned for preliminary trial in a day or two.

THE CONTROVERSY SETTLED.

Line of Burr & Bailey's Alley Established and Building Resumed.

Attorneys and the parties at interest yesterday held a conference with Mayor Waddell at the City Hall with reference to the controversy over the line of Burr & Bailey's alley, between Mrs. A. C. Wessell, who is having a brick store erected on one side of the thoroughfare, and Mr. E. P. Bailey, of the Wilmington Iron Works, who owns the adjoining property. Mr. Bailey claimed the building of Mrs. Wessell was encroaching upon the alley and Chief of Police Williams stopped further work on the building until the lines were established. The Mayor directed City Engineer P. Matthew to run out the lines and he reported the result of the survey to the conference yesterday. Both sides signified their willingness to abide by the survey and work on the store was resumed. There were present at the conference the Mayor, City Engineer Matthew, Mr. G. W. Britt and counsel for Mrs. Wessell, George L. Peschau, Esq.; Mr. E. P. Bailey and his counsel, S. M. Empie, Esq., and City Attorney Marsden Bellamy, Esq.

SEABOARD CHANGES.

City Ticket Agent Resigns—Mr. Williamson Goes to Hamlet.

Mr. Thomas W. Alderman, city ticket agent of the Seaboard Air Line in Wilmington, has resigned his position and will return Saturday to his home in Greensboro, N. C., where he has a better position. Mr. Alderman has been here about a year as ticket agent of the Seaboard and is popular with the general public. Wilmington will give him up with reluctance. His successor has not yet been named.

Mr. E. B. Williamson, who resigned as agent of the Seaboard in Wilmington, effective August 1st, left yesterday for Hamlet where he will become agent of the S. A. L., temporarily at least, succeeding Mr. J. E. Hancock, resigned to take a position with W. R. Bonsal & Co., contractors of Hamlet.

More Smallpox Cases.

There was something doing in smallpox circles yesterday. Just when the health authorities were congratulating themselves upon being able to vacate the pest house, three new cases came in a bunch. A colored family of Bowdens consisting of nine or ten persons, was sent out to the pest house by Chief Quarantine Officer Green from North Ninth, between Walnut and Red Cross streets, and a colored man named Brown and his wife were sent out from South Ninth, between Wooster and Dawson streets, yesterday morning. In the afternoon Capt. Green quarantined the store and residence of Mr. George E. Burnett, on corner of Fifth and Dawson streets. Mr. Burnett's wife has the disease.

What a Star Business Local Did.

South Washington, N. C., July 18, 1905.

We recently advertised in the Business Locals department of **The Morning Star** for "an experienced man to take charge of logging woods," etc.

We have thus far received **21** responses to the advertisement, and they are still coming.

We have secured the man we needed; and it is hardly necessary for us to add that **The Morning Star** has proved its claim to being a first-class advertising medium. NEAL-MORSE LUMBER CO.,

LAST OF IT RECOVERED.

Silver Piece Stolen by Jones Returned From Norfolk.

Deputy Sheriff W. H. Cox yesterday received by mail from Norfolk, Va., the last piece of silverware stolen from the residence of Mrs. Henrietta Shepard upon the occasion of the recent burglary of the premises by Willie Jones, who confessed everything and told of where he had disposed of the articles upon his conviction in the Superior Court. All the articles but a silver gravy ladle had been disposed of in Wilmington and they were soon recovered. The gravy ladle had been sent by Jones to his "girl," Willie Stokes, No. 279 Queen street. Deputy Cox wrote a letter for Jones requesting the Stokes girl to please return the little token of remembrance as it had been stolen and its recovery would help him out a lot in his little tangle in the courts. The colored lass with the endearing name was quick to respond to her lover's appeal and the gravy ladle came yesterday, nicely wrapped and in the box in which it was originally purchased. Mr. B. O. Stone identified the property and it was returned to him.

No word came in writing with the piece of silverware but Jones wrote to the Stokes girl from the jail yesterday enclosing a crust of corn bread from the prison bill of fare; hoping to excite the sympathy of his absent fiancee.

THINK IT OVER.

There are many reasons why one should give earnest consideration to this question of drugs and medicines. To the layman these reason may not always be apparent, but the reasons are there all right and your family physician can explain to you that there are drugs and drugs. We keep the kind that He says are right—always clean, free from inpurities and the best that the drug trade supplies. Our specialty is prescriptions. Let us fill your next.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

Thursday Morning, Aug. 3.

THE NEXT ADMINISTRA[illegible]ON EXPOSUR[illegible]

For a ye[illegible] been [illegible] m[illegible] [illegible]ng [illegible], how- [illegible] g a time to [illegible] of things in the [illegible] was required in flush- [illegible] scandal in the Agricul- [illegible]ural Department, we may expect to hear something about some of the high-handed and outrageous management of the printing office some two, three or four years from to-day.

We are told though that the "Red Tape Commission" is soon to report on the doings in the printery. This commission is the committee appointed by President Roosevelt to nose around in the Departments to see how they are being run and if the business methods can be simplified. Assistant Secretary of the Treasury Keep is chairman of this Presidential investigating committee and sometimes it is called the Keep Commission. If it is going to report on the scandalous conditions in the government printing office, it is to be hoped it will not Keep things dark about the use of the government print shop to get out political documents at the expense of the people for the benefit of the Republican party. The Keep Commission, certainly should not Keep mum on the issuance and circulation of political editions of the Congressional Record long after Congress had adjourned and there was no necessity for such editions except for Republican campaign purposes.

A Washington dispatch tells us that Assistant Secretary Keep now has in his possession the whole of the material relating to the inquiry at the Government Printing Office, the final brief of the counsel representing the Mergenthaler Linotype Co. having been received Monday. Mr. Keep was not at his desk Monday, but had secluded himself for the purpose of preparing the final report and record in the printing office inquiry for the examination of President Roosevelt. It is learned that the whole mass of the material will be transmitted to the President within a very few days.

Nothing will be made public at Washington in this connection, and whatever is given to the public will have to come from Oyster Bay. It is said that the inquiry has been exceedingly thorough, going into a great many points that had no direct bearing on the relative merits of the Lanston and Mergenthaler machines, the point which originally brought the investigation to a head.

It is also understood that in the course of this inquiry many ideas have been gained by the Commission, which is composed of men relatively inexperienced in the government service, as to the kind of topics to be investigated. The general understanding is that a new Public Printer will have to be selected very shortly, and that other changes in the offices will occur as a result of the inquiry.

Copy has just been sent to the printer for an elaborate set of questions which will shortly be distributed to the chiefs of the bureaus which are likely to be investigated by the commission in the course of its further work. From these the general scope of what is to be done can be gathered. The questions cover very fully the method of purchasing supplies, testing such supplies when furnished, passing upon, approving bids, etc. It also includes inquiries as to the organization of bureaus, methods of accounting and keeping records, and a great many other matters of the same description. While the chiefs of the bureaus are pondering these questions and preparing their replies, the commission will suspend operations for the next month or more and the inquiry will be at a standstill except in so far as work may be required in gathering the data asked for in the several bureaus.

There is no truth in the statement that the commission has been ordered to take up the situation at the Department of Agriculture. So far as can be seen its future operations will be determined by itself alone, in the absence of new developments.

It is believed that further inquiries will be conducted in secret, as at the Printing Office. This is considered the best method of getting witnesses to talk freely and give information which they otherwise might be inclined to hold back. The commission's attitude is sharply criticised by many persons in Washington, but will undoubtedly be presevered in.

The commission has not as yet taken official cognizance of the question of methods of appointing special agents. Further discussion develops a very bad situation in this regard in at least one bureau, while others are similarly affected. The commission is, however, aware of the situation and will probably take hold of it from some standpoint.

The foregoing is what goes out from Washington about the investigations of the President's committee. It is all right for its inquiry to be conducted in secret but when its work is completed the full facts should be given to the public. We hope at least to see the committee report as to what extent the printing office was used for campaign purposes. However, we guess it won't.

We would like to see Jordan and Cheatham take a look around in the print shop.

AFTER SECRETARY WILSON.

President Jordan and Secretary Cheatham of the Southern Cotton Growers' Association, make no bones of wanting every official in the Agricultural Department to be cleaned out. This includes Secretary Wilson whom the country generally has looked upon as a good old fellow and honest but too unsuspecting to be at the head of a great Department. We don't know but what we would be sorry to see Secretary Wilson put out of commission unless there were serious charges against him, but never theless it strikes a man up a tree that he has never had his Department well in hand.

The Charleston News and Courier gets at it right neatly when it says:

"It is felt that Secretary Wilson will have to go about his present task very vigorously if he is to retain all of the kindly opinions that are now held of him. He appears to be afflicted with an inability to realize that men connected with him in public service were not what they seemed to be and should have been. It is only a short time since he was protesting that Mr. Hyde retired from office 'under fire.' Secretary Wilson, hastened to give him a most cordial and flattering letter of recommendation. Yet there is an audible note of uneasiness in his voice when he now comes forward with the assertion that he had no idea Mr. Hyde meant to rush out of the country at this particular time.

"It is not encouraging to have Secretary Wilson tell us, 'Hitherto, it is true, the figures probably have been juggled and changed, but we have eliminated practically any opportunity for future jugglery of that sort,' and then to add, 'We probably never would have discovered what the difficulty was had it not been for the fact that two speculators got into a quarrel about a woman.' "

"This is an admission of official density which does not promise entire immunity from like troubles in the future."

CURRENT COMMENT.

—What the Kaiser said to the Czar may have been similar to what the Governor of North Carolina said to the Governor of South Carolina, but nobody knows.—Philadelphia Press.

—The President recently paid a visit "incog" to a children's hospital at Coney Island. But he took the precaution to take little Jakey Riis and his magaphone along.—Jacksonville Times-Union.

—Why B-e-a-u-f-o-r-t spells Bo-fert in North Carolian and Bu-fort in South Carolina is explained by that shark story. In the North Carolina town they draw a long bow.—Charleston News and Courier.

—The furniture car famine at High Point is largely akin to the refrigerator car shortage in the strawberry district last Spring. Traffic in some parts of North Carolina has simply outgrown the facilities of the railroads; that is all.—Charlotte Observer.

—In the midst of a torrid-summer, while yellow fever is seizing on the country, with the Equitable about to be probed to its lowest depths and Roosevelt preparing to wrestle with Congress, Peary's excursion to the North Pole does not appear to be such a foolish venture, after all.—Charleston (S. C.) Post.

—The Cotton Growers' Association demand the resignation of Secretary Wilson, not because he is dishonest, but because of incompentency, as shown by the revelations of graft in his department. Why Wilson more than any of the others? If all were to resign because of graft in their department there would be none left, likely.—Columbia Record.

—A special from Wilmington to The Charleston News and Courier, under date of July 29th, says it is "authoritatively stated" there that Governor Glenn is considering the proposition to release Howard and Hawley, the gold brick men, on payment of $5,000 each. This sounds impossible in view of the fact that the Governor recently declined to interfere with the sentences of these men, which were, by the way, light enough in the beginning.—Charlotte Observer.

—Melon growers down the Carolina Central railroad, in the Laurinburg and Maxton section, have had slendid success with their crops and everybody in that part of the country is in high spirits. The watermelon and cantaloupe crops in that belt have been very good this year and the growers have made good profits on every shipment they have made. North Carolina planters are learning more and more each year that successful farming means diversification of crops. The soil of this State will grow almost anything and the farmers should raise almost everything on it.—Charlotte News.

TWINKLINGS.

—Mr. Skinflint—The paper says skirts are to be worn longer than ever. Mrs. Skinflint—Well, you needn't be figgerin, on me wearin' mine any longer. I've worn it five years this comin' fall!—Harper's Bazar.

—"Of course, there will always be some tubercular ailments," said the conceited young physician, "but if people would only take my advice there would be fewer." "Yes," replied Knox, "fewer people."—Philadelphia Press.

—"I object to being called a 'gay Lothario,' " said Mr. Bragg. "Of course, I'm not engaged to any particular girl, but—" "Of course, you've not, interrupted Miss Snappe; "if she were particular, you couldn't be." —Philadelphia Ledger.

—Young Husband—Bertha, did you ask the grocer to show you some of those seedless beans I was telling you about this morning?" Young Wife—"Yes; and if you want your slippers warmed before you put them on you can warm them yourself, sir. I won't." —Chicago Tribune.

—"I didn't expect to see that girl at Atlantic City. I saw her at Newport last year," said Towne, looking on at the bathers. "You seem to have a good memory for figures," remarked Browne. "I wouldn't say that; but I have a memory for good figures."—Philadelphia Press.

—"Don't you sometimes feel discouraged about our political system?" "No," answered Farmer Corntossel. "I kind o' like it. It's a great relief to have a man come around shakin' your hand an' tellin' you stories without tryin' to sell you books or lightning rods."—Washington Star.

—Collector—"I've motioned to that old man three times and he pretends not to see me. Now,I'm going to present this bill in the presence of his friends. Office Boy—"Aw, you chump! He can't see you—don't you know he's blind?" Collector—"Blind? Then, by George, he's got me—this is payable at sight."—Cleveland Leader.

—No Mercy.—When the fool-killer came to the man who rocks the boat he was determined to mete out severe punishment. "Are you going to kill him?" asked the friend. 'No," replied the fool-killer, "that would be too lenient. I am going to make him marry a modern club woman, so he will be doomed to rock the baby when she goes out."—Chicago News.

—"Little boy," said a gentleman, "why do you carry that imbrella over your head? It's not raining." "No." "And the sun is not shining." "No." "Then why do you carry it?" "'Cause when it rains pa wants it, and when the sun shines ma uses it, and it's only this kind of weather that I can get to use it all."—Philadelphia Public Ledger.

COTTON MARKETS.

New York, August 2.—The cotton market was not more than moderately active, but ruled steadier on covering of shorts in preparation for the government's crop condition report tomorrow. The close was at a net advance of 10 to 13 points. The opening was steady at an advance of one point on May but generally 1 to 8 points lower, with near months leading the decline under both pressure and liquidation inspired by lower cables, and favorable weather reports from the South. There was active covering by shorts at the decline which carried October to 10.58, or about 47 points under the high point of Monday and while there was considerable cotton for sale on the way up promoting frequent reactions, the market showed an advancing tendency in the main during the afternoon. A report that a Southern ginning association had estimated the condition of the crop at 73 per cent. and claimed a reduction in acreage of 22.7 per cent. including 5.1 per cent. for abandoned lands helped the market toward the close which was steady and within a point or two of the top. Sales were estimated at 250,000 bales. There was some further talk of high temperatures in Texas, but generally speaking climatic conditions were considered good and Southern spot markets were unchangde to 1-4c lower according to official reports.

—Yesterday's Florence Times: "A serious wreck occurred on the freight yards near the A. C. L. transfer yesterday evening about 4 o'clock. Two box cars and an engine were badly broken up. No one was hurt. Engineer J. J. Worth, one of the hostlers on the yards, had engine No. 9, which had just been over-hauled in the shops, out for a trial trip, before sending it out on a regular run and while running it up and down the yards' the engine side wiped with outgoing freight train No. 212."

A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At R. R. SPIRITS TURPENTINE.

—Mr. Mack Miller, of Morgan township and a splendid citizen of Rowan county, was killed Tuesday while hauling logs. A log got loose and rolled over him.

—Asheville Citizen: The Ono-Frisbee wrestling match (Friday) has got beyond the talking stage, and it now looks as if the giant of Madison county has something to think about when he contemplates his approaching battle with the Jap. It will be a question as to whether American brawn is superior to Japanese science.

—Salisbury Post: Col. Fred A. Olds writes from Morehead City that there is still talk of opposition to Senator Simmons and that Chief Justice Clark and ex-Governors Jarvis and Aycock are entered whether or not they will be the entry. This is interesting only for the reason that this Piedmont end hears it repeated every week by those who have journeyed coastward.

Postmaster C. T. Bailey, of Raleigh, on Tuesday, received notice from the Postoffice Department that the amount of his bond had been increased from $100,000 to $150,000. The increase was made because of the amount of the disbursements, which, on account of the rural carriers, are $60,837 each month. The trasactions of the Raleigh postoffice during July amount to $117,498.78.

—Out of the 30 miles of the extension of the Raleigh & Southport Railroad southward from Lillington, about six miles have been graded, four miles of this system covering the heaviest grading of the entire line. Work is in progress on the fourth span of the steel bridge across the Cape Fear river at Lillington. The general manager of the road says it will be completed to Fayetteville in all probability by January 1st.

—Fayetteville Observer: Rev. W. H. Kirton has published a small volume of essays on the dispensary. In the fourteen chapters embraced in the book the dispensary is reviewed and condemned as a hybrid, monstrosity, as intolerant and despotic, as constitutionally and methodically dishonest, as worse than the saloon, as exceedingly debauching and very dangerous. The book is sold by the publisher, Rev. W. H. Kirton, Roxboro, N. C. The price is 25 cents postpaid; one dozen copies for $2.50.

—The Charlotte police went into the woods on Tuesday and finally ran down a pretty girl, who had previously evaded the fleetest footed officer who had gone after her. For some reason or other she had taken to the woods and either slept under the trees or in some body's barn. She gave her name as Agnes Lynch, of Mostella, Pa., from which place she came South eight months ago. She is 15 years old and neatly dressed. She was sent to the Crittenton Home. She will tell no one why she took to the woods.

—A dispatch from Asheville on Tuesday says: A request has been received from French capitalists in Paris for samples of Beaver Dam Creek water. The waters of Beaver Dam Creek have excellent bleachery qualities, and the French capitalists desire an analysis of the water looking to the establishment of a bleachery in this city. The water has been shipped to the address of the Parisians. The State Chemist some time ago analyzed the Beaver Dam Creek waters and expressed the opinion that it was most desirable for bleachery purposes.

—Raleigh News and Observer, Aug. 2nd: Dr. F. L. Stevens of the A. and M. College, returned to Raleigh yesterday from Sharon Hall, near Charlotte, where he was called last week to examine some sick cotton. The diseased spots appear in the field, gradually enlarge, and spread consternation among the growers. The upper leaves are tender and watery in appearance, and the lower and older leaves are reddish on the upper side. In speaking of this new cotton disease last night, Dr. Stevens said: "I have received many letters from different portions of the State concerning what seems to be this same disease. It is new to all cotton growers, as nothing like it has ever been seen within the memory of any of them. The cotton in the diseased spots is absolutely barren; the leaves, flowers and bolls all fall off leaving merely a bare stalk, which also soon dies. The spots thus infected, when first noticed, are usually twenty or thirty feet in diameter, and they enlarge in every direction, leaving the ground bare. In this way the diseased spots are visible at a great distance. The disease has not yet been investigated, and it has not been positively determined whether it is caused by an insect, by fungi or by bacteria." There are evidences of this disease at Rowland, Lumberton, Auburn and Sharon Hall.

—Washington Post: "I live in a town which is the greatest seat of the plug-tobacco industry in the world, of Winston-Salem, N. C.," said Hon. J. C. Buxton, one of the most prominent lawyers of the Old North State, at the Raleigh. "Last year, as the records will show, there was a production of 32,000,000 pounds of plug tobacco in the factories of Winston-Salem. Doesn't look as if that much plug could be chewed up in a decade, eh? But somebody must get away with it, for the output is constantly increasing. Winston and Salem are two separate and independent municipalities, and yet are practically but one town. Salem is by long odds the older, as it was founded by Moravians from Pennsylvania in 1753, while its partner is a giddy, young thing, whose record goes back only half a century. These Moravians were a fine race of people, thrifty, pious and orderly, and the same good traits are exemplified in their descendants. The most striking personality in our community is that of R. J. Reynolds, the tobacco magnate and head of a company which has 400 traveling salesmen and 6,000 people in its employ. Mr. Reynolds came to Winston-Salem about thirty years ago from Patrick county, Va. He had a little capital, and embarked in the manufacture of tobacco in a very moderate way. To-day he is several times a millionaire, and so strongly intrenched that the tobacco trust instead of absorbing his business, as it tried, had to be content with taking stock in his company. North Carolina can boast of the two greatest tobacco kings of the world—R. J. Reynolds and J. B. Duke."

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief and in a short time I was entirely cured." Guaranteed at R. R. Bellamy's drug store; price 50c. **

RUSSO-AMERICAN TARIFFS.

Retaliatory Duties to Be Withdrawn by Russia on Machinery.

By Cable to The Morning Star.

St. Petersburg, July 31.—Negotiations for the settlement of Russo-American tariff difficulties are advancing steadily. Russia is willing to withdraw the retaliatory duties on American machinery, etc., which weigh hard on Russian industry and agriculture and only seeks acknowledgement of the exceptional nature of the retaliatory duties imposed by her on sugar, American exports of which are not apt to become an important commercial factor.

The ministry of finance hopes to be able to arrange a re-adjustment and to interchange notes on the matter without having recourse to a commission; and the wish is frankly expressed that a settlement might be arrived at in time to be announced during the peace negotiations. The principal prospect of delay lies in the desire to submit the revision to M. Witte for his formal approval as a matter of courtesy, showing how strongly his political star is in the ascendant in Russia today.

AGAINST THE LEATHER TRUST.

Concern Organized to Scoop Independent Tanneries.

By Wire to The Morning Star.

Milwaukee, Wis., July 31.—A Wisconsin special from Kenosha, Wis., says:

Articles of incorporation were filed at Madison to-day for the N. R. Allen Sons Tannery Company, of Kenosha. The capital stock is $800,000 and the incorporators are: Charles W. Allen, Nathan R. Allen, Jr., and Edward C. Thiers. It is generally believed here that the deal is a re-organization of the American Hide and Leather Company, by which the company will secure control of all of the larger independent plants in the country.

Fayetteville City Bonds.

The Fayetteville Observer of yesterday afternoon says: "The city's $30,000 bond issue brought $106.4 today's sale, the successful bidder being Mr. J. B. Works, representing Messrs. Seasongood & Mayer, of Cincinnati. By his bid the city will receive for its $30,000 Electric Light and Funding 30-year 5 per cent. bonds, par value, plus accrued interest, a premium of $1,920, less delivery charges on the bonds to Cincinnati, though the purchasers will furnish blank bonds at their expense. Of the proceeds of the sale $15,000 is to be expended, under the supervision of the Public Works Commission, in enlarging the electric light plant, and $15,000 will be used to pay off the city's floating indebtedness. The Bank of Fayetteville's bid was only five dollars less than the one at which they were sold.

Yesterday afternoon one white and two negro boys were killed outright and twenty other persons were more or less seriously injured in a heavy wind-storm which struck Bassmay, La. The town is situated in a forest of Pine timber, the wind uprooting several trees which fell on houses, killing and injuring the occupants. Telegraph and telephone communication is prostrated.

HAPPY RESULTS.

Have Made Many Wilmington Residents Enthusiastic.

No wonder scores of Wilmington citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Wilmington by Doan's Kidney Pills.

J. E. Bloodworth, residing at 30 South Front street and employed at 123 Princess street, says: "I used Doan's Kidney Pills and they have proven to be a very valuable remedy, and I believe I am safe in recommending them. My back and kidneys have given me great trouble. I thought I had rheumatism. I had shooting pains through my back and sides which often made me yell right out. If I stood, sat or lay dawn or kept in any one position for any length of time, it was almost impossible for me to move on account of the great pain. I heard some one speak of Doan's Kidney Pills, and I sent down to Bellamy's drug store and got a box. They completely removed the pains. They are without doubt, a valuable remedy for backache."

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

The Morning Star.

WILMINGTON, N. C.

Thursday Morning, Aug. 3.

WILL RETURN FROM EUROPE.

Hyde is Wanted to Testify Before Grand Jury.

By Wire to The Morning Star.

Washington, August 2.—In answer to a cablegram to John Hyde, former chief statistician of the Department of Agriculture, urging him to return to this country, Secretary Wilson today received the following dispatch from Mr. Hyde:

"Southport, Eng., August 2, 1905. "Returning as soon as possible. Letter."

Mr. Hyde left Washington about the time a special grand jury was convened to investigate charges of a leakage in the bureau of statistics, by which it is alleged that Edwin S. Holmes, the former associate statistician, furnished advance information of the Department's figures on the cotton crop to New York brokers. When Mr. Hyde resigned as chief of the bureau he agreed to hold himself ready to aid the Department of Justice, in the investigation it is making. He took passage for Europe a few days later and his departure was not learned until he was beyond the jurisdiction of the Federal authorities who wanted him as a witness before the grand jury.

Secretary Wilson today designated as a member of the new board of statistics of the Department of Agriculture P. L. Hutchison, of New Orleans, lately associated with Director Stubbs, of the Louisiana Experiment station. It is the Secretary's intention to displace the members of the temporary board recently appointed as soon as he can find suitable men to fill the position. Mr. Hutchinson who is the first seletcion is endorsed by Mr. Stubbs, former director of the Louisiana Experiment Station, with whom Secretary Wilson is conferring in regard to the personnel of the board.

WARM WIRELETS.

Nick Garrison, a wealthy and well known lumber dealer shot and killed his cousin, Felix Hoskins near Spring Creek, Leslie county, Ky., yesterday. Hoskins was also a large lumber merchant and prominent. The quarrel arose because Hoskins sued Garrison for an alleged debt. Garrison fled to the mountains.

A Jackson, Miss., dispatch says: Every team in the Cotton States baseball League has disbanded and the players are now on the outlook for oportunities to sign with other teams. A few have secured positions on the Southern League teams but the majority will try to make contracts with the South Atlantic and Pacific coast leagues.

William A. E. Moore, husband of Fayne Strahan Moore, who achieved notoriety seven years ago by working a "badger" game on Martin Mahon at the New Amsterdam Hotel in New York city, was pardoned yesterday by Governor Higgins. Moore was sentenced in December, 1898, for twenty years. A number of prominent citizens of Cleveland, Ohio, where he used to live, including Governor Herrick, signed the petition for his release. A good position is awaiting for Moore as soon as he leaves prison.

AMERICAN-CANADIAN AFFAIR.

Grand Celebration of Great Canal Project on Lakes.

By Wire to The Morning Star.

Sault Ste Marie, Mich., August 2.—An elaborate display of fireworks participated in jointly by Canadians and Americans tonight concluded the first day of the exercises in celebration of the 50th anniversary of the opening of the Sault Ste Marie ship canal. The Canadian government contributed liberally to the exhibition and Canadians showed great enthusiasm.

Hundreds of persons lined both sides of St. Mary's river to witness the American and the Canadian displays. Both Canadians and Americans gave three cheers as a mammoth pyrrotechnic portrait of King Edward was shown, while bands on the water front played American patriotic airs.

The city was illuminated tonight. All canal structures of both governments and the streets generally were lighted by thousands of incandescent lights, Japanese lanterns being used in the government park.

Previous to the fireworks display, Governor Warner, of Michigan, received in the government park Vice President Fairbanks who took part in the exercises today and will be the special speaker tomorrow.

BACKSET FOR ALICE WEBB DUKE

Alimony and Counsel Fee Denied In Her Divorce Suit.

New York, August 2.—The application of Mrs. Alice Webb Duke for alimony and counsel fee, pending the trial of her suit for divorce from Brodie L. Duke was denied today by Justice Giegerich in the Supreme Court. In giving his decision against Mrs. Duke, Justice Giegerich said that the success of Mr. Duke's suit for divorce appeared to be inevitable.

NEW ORLEANS STILL HOPEFUL

Yellow Fever is Spreading But Authorities are Not Discouraged at the Outlook

THE CASES NOW NUMBER 378

There Were 32 New Cases Yesterday and 11 Deaths, Making 78 Deaths to Date—Brunswick Quarantines Against Savannah.

By Wire to The Morning Star.

New Orleans, August 2.—The record of yellow fever up to 6 P. M. is as follows:

New cases, 32.

Total cases to date, 378.

Deaths, 11.

Total deaths to date, 79.

Substitute foci, 4.

Total substitute foci, 54.

The fever situation showed no material change during the day and the few new foci shows that it is not spreading with the rapidity of former years. Of the deaths four were in the emergency hospital; four in the original district and three in the charity hospital.

The impending controversy between the States of Louisiana and Mississippi over the invasion by Governor Vardaman's quarantine mosquito fleet and the armed guards station at Pearl river, is not improved by the statement given out by Governor Vardaman today in Jackson after his return from the coast, where he went to investigate the situation.

Governor Blanchard has ordered Captain Bostrick of the naval brigade, to impress the fleet of patrol boats of the oyster commission into service, arm them and patrol the waters now in possession of the Mississippi boats. One of these boats has already been dispatched to the Rigolets, the neck of water connecting Lake Pontchartrain with Lake Borgne and late tonight or tomorrow morning a launch armed with Colt's rapid fire guns from the naval brigade armory and manned by officers and crew from the brigade will leave for the scene.

Death List Grows.

To-day's reports of the fever situation showed an increase in the number of deaths, but the health authorities confessed to no alarm over the situation and said that more fatalities were to be looked for, because during the last three or four days there had been a sufficient increase in the number of cases to warrant the expectation of heavier mortality.

High temperatures succeeded by heavy rain and cooler weather produced climatic conditions favorable to fatalities. Most of the deaths were of Italians and nearly all of them were either in the emergency hospital or in the quarter adjacent thereto. There was no dissent among the authorities from the view expressed by Health Officer Kohnke, that condition were hopeful. There will be no relaxation of emergency in fighting the fever. With only a few isolated cases above Canal street, it is believed that once the infection begins to decline there will be little difficulty in stamping out the disease. While the fever spells a serious state of affairs, it is not believed that there is justification for the terror which seems to have spread over the country outside of New Orleans.

Italians Panic Stricken.

The City Board of Health's report of yesterday's 42 new cases and six deaths shows that Italian patients number thirty-five, while the six dead were all Italians. In Hospital street, in the heart of the orignally infected area, there were twelve cases, all in one block. In one Hospital street house, five case were found and in another four. Most of the other new cases were found near the French market. In spite of all that has been done to reassure them, many Italians continually try to conceal their cases. They are still stricken with panic and they turn in fear from doctors and health officers.

It was due largely to the energy with which the Marine Hospital forces set about the work of discovering hidden cases that Tuesday's record was made so large. In one instance when the officers had made a thorough inspection of a house and had failed to find a patient, they went through a skylight and found a sick man lying on the roof. In another case they found a patient concealed under a cistern. The other day a wagon load with household gooas and accompanied by Italians, started to cross one of the ferries. Officers insisted on an investigation and when the goods were unloaded a sick man was found in the bottom of the wagon. The humbler Italians have in many instances refused to follow the custom of sleeping under mosquito bars.

Bad Scare in Mississippi Town.

Postmaster Woodward to-day received a letter from the Railway Mail service at Atlanta saying that Greenville, Miss., hereafter would accept not letter mailed from New Orleans that had not been disinfected, and that under no circumstances would receive newspapers. Greenville will doubtless be temporarily out of mail or newspapers. The mosquito theory being accepted by the Federal officers, disinfection of mail is regarded as unnecessary.

It is said that Secretary Hunter of the Mississippi Health Board will probably come to New Orleans to survey the situation generally and especially to study the scientific fight now in progress on the basis of the mosquito theory. In his opinion the greatest danger has passed, provided present quarantine restrictions are properly enforced.

Vardaman is Reasonable.

Surgeon White, of the Marine Hospital service, has returned from the Mississippi coast where he talked over the telephone with Governor Vardaman. Dr. White said that Governor Vardaman had given courteous consent to the establishment of a detention camp on the Mississippi side of the State line on the Louisville and Nashville railroad, and will arrange for the admission to Mississippi points of persons from New Orleans who enter the camp, and are discharged with certificates of Federal surgeons. There is no longer any obstacle to the movement of thorough passengers across Mississippi.

The question of whether Feneral control of the situation ought to be invited is still discussed, but, unless graver conditions arise, it is not regarded as likely that there will be any movement in that direction.

Mayor Behrman to-day signed the mosquito ordinance requiring the cisterns shall be olled or screened within 48 hours by each property owner or his agent.

The Conflict With Mississippi.

No apprehension exists of any serious results from the trouble that has arisen on the Mississippi and Louisiana border over the enforcement of the Mississippi quarantine. Reports of Captain Bostick, of the naval reserve, and of Colonel Arsene Porilliat, of Governor Blanchard's staff, confirmed the charges that Louisiana fishermen, boatmen and citizens have been interfered with, and that there has been some obstruction to traffic in Lake Borgne canal, and that the revenue cutter Winona, which is doing service under the direction of Surgeon Wasdin, has interferred with Louisiana boats. These reports lead Governor Blanchard to order Captain Bostick and the mosquito fleet of the oyster commission to the scene.

With Governor Vardaman anxious to avoid any conflict with the Louisiana authorities it is thought that the Mississippi soldiers who have, it is said, been coming across the Louisiana line, hereafter will be required to keep on their side of the border and thus all further possibility of clashes will be removed.

Much Ado About Nothing.

Jackson, Miss., August 2.—When asked for a statement regarding the reported invasion of Louisiana soil by Mississippi troops doing quarantine on the gulf coast and a complaint received from Governor Blanchard to this effect, Governor Vardaman declared that the whole affair was much ado about nothing. He attached very little seriousness to the rumors of an impending conflict between the two States. He said:

"I received a telegram from Governor Blachard stating that the Mississippi quarantine guards had entered upon the territory of Louisiana and otherwise interfered with the rights of the people of Louisiana. I wired Governor Blachard that this was without my knowledge or order, and that I should see to it that this was not repeated. All this talk reminds mo of some of the scenes portrayed by Cervantes in the famous Romans "Don Quixote." I repeat that I shall not permit the rights of Louisianans to be violated by the Mississippi quarantine guards and I want to emphasize the fact that I shall not permit the people of Louisiana to violate the quarantine regulations as promulgated by the State Board of Health of Mississippi. It is my purpose to increase the force of guards and double their vigilance.

Governor Vardaman left here to-day for the gulf coast to make a rigid investigation of the complaint from Governor Blanchard of Louisiana, thatMississippi troops have invaded Louisiana territory, and are patrolling near Lake Rigolets. Governor Vardaman declined to make any statement in advance of his investigation.

Both Captain Bostick and General Perilliat submitted reports as to the results of their investigations. Both dispatched officers to the scene today and they learned enough to confirm the first reports of the armed invasion and the arbitrary action of the Mississippi patrol boats in closing Louisiana waters to Louisiana fishermen. There are 18 boats now at Ship Island which were captured by the patrol and towed by the revenue cutter Winona to Ship Island quarantine station. It is claimed that every one of these vessels was taken in Louisiana waters.

Another complications has developed in the same connection. The British ship Brayhead of the Head Line after completing her cargo in New Orleans stopped at the Mississippi side of Lake Borgne canal to get a deck load of timber but the Mississippi boats absolutely refused to allow a tug to go to the mouth of Pearl river to get the barge and rafts. The Brayhead had to leave without the cargo and the agents and the owners will lay the matter before the Britgernment.

Refuges for North Carolina.

Shreveport, La., August 2.—An official report issued by the Board of Health to-night on the case of yellow fever at the detention camp on the outskirts of the city, states that the patient is considered convalescent. There are no new cases of fever and no suspicious cases, and the local health authorities are confident that the infection will be confined to this one sporadic case. The excitement that prevailed yesterday was subsided, although a number of people left today for points North and East. Only two railroads, the Vicksburg, Shreveport and Pacific, and the Cotton Belt are taking passengers out of the city, and there are going to the mountains of Tennessee and the Carolinas, or to points in Missouri or some other northern State.

People Leaving Montgomery.

Montgomery, Ala., August 2.—According to statements by the local Board of Health and city physicians, the single case of yellow fever at the Emergency Hospital is the only one in Montgomery, and the patient is reported as convalescing.

They state that they have no suspicious cases under surveillance. About 500 people left here to-day, and it is believed that the rush will increase. A large number of people seem to be panic-stricken over the last night's announcement.

Shot Gun Quarantine in Arkansas.

Little Rock, Ark., August 2.—Details of the State militia are being made to-day to guard the gateways to the State. The first detail under Captain Levatte, goes to Lake Village, Chicott county, which is on the Louisiana border in Southeastern Arkansas. Rigid shotgun quarantine will be enforced.

Mexico is Fortunate.

Mexico City, August 2.—The Superior Board of Health reports that there are only four cases of yellow fever in the entire Republic of Mexico. These cases are in the city of Vera Cruz, where they are thoroughly isolated. There is even some doubt if these cases may not be malaria, but the health authorities have deemed it prudent to act on the theory of the disease as yellow fever. The Board of Health, feels confident it can prevent the introduction of yellow fever from New Orleans or Panama.

Savannah Takes Action.

Savannah, Ga., August 2.—Mayor Herman Myers this afternoon issued a proclamation declaring quarantine against persons and personal baggage from New Orleans, the entire State of Louisiana and all points which now have yellow fever. Special quarantine officers were at once apointed to watch all incoming trains.

New York, August 2 Four of the five persons taken from the steamer San Jacinto from Galveston and sent to Hoffman's Island yesterday for observation as to fever symptons, were discharged from quarantine to-day. The two patients from the Seguranca were fast convalescing to-day.

Brunswick Quarantines Against Savannah.

Brunswick, Ga., August 2.—At a special meeting of the local board of health today it was decided to put on a rigid quarantine against all infected and suspected points as well as against all Southern points, including Savannah.

Norfolk Quarantines.

Norfolk, Va., August 2.—The quarantine against all vessels from Southern ports is being rigidly enforced by the Federal and State quarantine authorities at the Virginia capes and in Hampton Roads. Every vessel entering the capes is held for a thorough examination by the United States Marine Hospital authorities. The British steamship Othelo, from Mobile to Bordeaux and Havre, and the French steamer Longwy, from Port Tampa were held today but later passed and came in for bunker coal.

ENVOY WITTE HAS ARRIVED

Talks Like He Doesn't Know That Russia Has Been Whipped

MINIMIZES JAPS' VICTORIES

People In Europe and America Ignorant of Situation—Japan Has No Right to Dictate Terms—Jap Envoys Wont Talk.

By Wire to The Morning Star

New York, August 2.—Clothed with plenary powers, personally prepared and signed by his sovereign Sergius Witte, Russia's ranking plenipotentiary to the Washington conference, landed here today from the steamship Kaiser Wilhelm der Grosse as quietly and democratically as the most humble of his fellow passengers. A number of Russian officials in this country went down the harbor in a revenue cutter to greet the disinguished envoy.

Awaiting Mr. Witte at the dock was Baron Rosen, Russian ambassador at Washington, with his first-secretary of embassy, Mr. Hansen. Baron Rosen came on board as soon as the ship reached the dock and cordially greeted his conferee and the members of his suite. After ten minutes conversation, during which the majority of the passengers landed, Mr. Witte came down the gang plank on the arm of Baron Rosen, followed by his suite, but soon found his passage impeded by a tremendous crowd who cheered him and whose greetings Mr. Witte smilingly acknowledged by repeatedly lifting his hat. Midway down the pier the procession was again stopped, this time, however, by a delegation from the Slavic Society of New York, who presented Mr. Witte with an address. The Russian envoy made a beautiful but cordial response.

Soon after the ship left quarantine, Mr. Witte, surrounded by a large group of newspaper men who came down the harbor on the revenue cutter and by as many of the passengers as could crowd around him, called to his side Professor DeMartens, a member of his suite, and handed to him a statement with the direction that he deliver it in English as the greeting of Mr. Witte upon his arrival in this country. Professor DeMartens read the greeting in a clear voice and at its conclusion M. Witte received a hearty ovation which evidently pleased him and which he acknowledged by several bows.

As Mr. Witte does not speak English he was not pressed for an interview but it was ascertained beyond a doubt from members of his party that the scope of the powers of Mr. Witte, who comes as plenipotentiary of Russia to discuss with the Japanese plenipotentiaries means of ending the war, and provided a basis acceptable to Russia is obtained to sign the treaty of Washington, equal in every way the powers handed to Baron Komura by the Japanese Emperor.

New York, August 2.—The Kaiser Wilhelm der Grosse with Mr. Sergius Witte, the senior Russian peace envoy, arrived in quarantine this afternoon. Mr. Witte was in good health. The ship had a good passage, the sea being smooth, except on Saturday and Monday when it was a little rough.

On shipboard Mr. Witte was generally reticent when the subject of his mission was mentioned. However, to an Associated Press correspondent who accompanied him from Cherbourg, Mr. Witte said:

"Almost everywhere in Europe as well as in America not only Russia, her forces, her resources and her power of resistance are not known but the people are even mistaken about the true results of the war. The Russians have had reverses but this does not signify that they have lost the power which was known to the Muscovite Empire before the war; it does not mean that Russia has become a neglible quantity nor that the Japanese have acquired by result of the recent victories such a supremacy as to make the Russian Empire consider them a truly redoubtable enemy."

Mr. Witte recognizes the good qualities of the Japanese military, naval and administrative organizations and does not believe any other European nation would have been able to resist Japan as Russia has done.

All of the foreign officers of the European armies he said who followed the war were unanimous in affirming that the Russian troops both soldiers and officers fought with true, admirable bravery, but they had to withdraw on account of a combination of circumstances with which their personal valor could not contend. On the sea the Russians found themselves constantly in inferior conditions. The squadron of Rojestvensky was sent against Japan not because the Russians had much confidence in its success but because they could not renounce from a military and moral point of view any chance, no matter how uncertain of obtaining a partial victory.

The Japanese he declared have not made such progress as was generally believed; in fact they would have to advance four times as much as they have done in the last year and a half to reach Russia proper, in which case alone they might consider themselves in a position to impose the conditions of peace.

According to the Russian plenipotentiary, those who do not know Russia well, oppose to these reasons the spectre of the internal conditions of the Empire, imagining all kinds of cataclasms, but then about this he said they were mistaken.

M. Witte did not wish to discuss at this time the events in Russia, affirming, however, that they have not the character nor the gravity attributed to them. M. Witte indicated, notwithstanding these views, that he does not mean to say that he will not make every possible effort towards the conclusion of peace, adding that he is favorable to peace as a Russian and as a man, having always worked to prevent war and understanding that at present nearly the entire world desires the end of the conflict. He repeated that he will honestly do all that his conscience may suggest to bring about, if possible, an agreement which may be equally satisfactory to the interests of Russia and Japan. After having done this, no matter what the results may be, Mr. Witte feels that he will have accomplished his duty. He emphatically denied having said that Japan's peace terms were intolerable. He also denied positively that he had predicted that the conference would break up in a week.

Japanese Are Prudent.

New York, August 2.—At the headquarters of the Japanese peace commission to-night no comment was made upon the Associated Press interview with Mr. Witte. Aimar Sato, who has met all interviewers since the Japanese delegation arrived in New Yark, said to-night that Baron Komura would make no statement at this time, and from a personal standpoint he (Sato) thought that to make any statement or comment at all would be entering the controversy prematurely.

One Sensible Russian.

Victoria, B. C., August 2.—Dimitri D. Pokotiloff, a member of the Russian peace envoys suite, arrived by the steamer Empress of Japan today. He is on the way to Portsmouth, N. H., where he will assist M. Witte and Baron Rosen in the forthcoming peace negotiations. M. Pokotiloff declined to discuss the peace question in any phase.

COL. WATTERSON HOME AGAIN.

Characteristic Remarks of Kentucky Editor on Two Things.

By Wire to The Morning Star

New York, August 2.—Comparing the American and European types of aristocracy, Colonel Henry Watterson, who returned to-day on the steamer Oceanic from a trip to Europe said:

"I observed European artistocracy pretty closely while I was over there and I have arrived at the conclusion that foreign aristocracy is of a much better grade than the American article. There aristocracy means lineage and brains. Here—well it ranges chiefly from bad whiskey to Standard Oil."

Mr. Watterson said that he had read the accounts of the scandal in the Department of Agriculture and added:

"I have often wondered how so many scientific men connected with the government at comparatively small salaries could lives so well. It only goes to show that the college man is not a success in politics."

TRAIN DISPATCHERS STRIKE.

Trains on Trans-Continental Lines Seriously Interfered With.

By Wire to The Morning Star.

St. Paul, Minn., August 2.—With hundreds of telegraphers of the Great Northern and the Northern Pacific railroads on strike to-night and scores of stations closed, immense hindrance is experienced in the moving of many trains on both the trans-continental system affected. Through limited trains and time-freights, by great effort, have been kept almost on schedule time, but attempts have been abandoned to maintain local freight and passenger schedule service. The greatest interference in schedule has been on the Idaho division, some of the fast trains being delayed five hours where the striking operators, it is alleged, turned the signal boards or opened the circuits.

—Tax-dodging in the Philippines is reported by the authorities; and yet it was declared the Filipinos were not ready for civilization.—Judge.

Special Trial Offer

THE MORNING STAR

At Reduced Rates

To New Subscribers

For the next sixty days will mail THE MORNING STAR to subscribers outside the city at the following reduced rates:

FOR ONE YEAR $4.00

FOR SIX MONTHS $2.00

Positively, no subscription will be taken at the reduced rates for a period less than six months. For one month the price will be, as heretofore, $1.25 for three months; or, fifty cents for one month.

This offer, as will be noted, is for a limited period only, and is made for the purpose of giving those who appreciate the value of a daily newspaper an opportunity to read the STAR for six months, or more, at a cost of about one and a quarter cents per copy, and then determine whether or not they will continue their subscription at the regular price.

No name will be entered on our books under this offer unless the order is accompanied with the cash.

While this proposition is made primarily to secure new subscribers, old subscribers outside the city may avail themselves of its advantages at the reduced rate provided they pay all arrearages and for not less than six months in advance.

On account of the heavy expense attached to our city circulation department this offer does not apply to city subscribers.

Sample copies mailed free to any address.

Note the conditions of this offer carefully to avoid mistakes.
